Where is your nest?

Birds nest in a variety of places and build different types of nests. Help these birds find the right nest by drawing a line from the bird to the nest.

**Streamertail**

- A hole (or cavity) in a tree

**Guadeloupe Woodpecker**

- A round, covered nest made of dry grass and sticks, with a side entrance

**Cuban Tody**

- A delicate cup nest made of soft materials like cotton or grass. Held together with lichen or spiderwebs.

**Bananaquit**

- A long tunnel in an earth bank that leads to a nest at the end of the burrow
