

Peregrine Falcon Fact Sheet

A *fact sheet* is a short, typed or hand-written document that contains the most important facts about a topic.

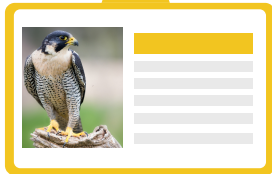

For today's activity you'll create a fact sheet for the Peregrine Falcon. First you will need to print the card. Then fill in the information.

When printing, select print on both sides.

You can use the information from 'Migratory Bird of the Day- Peregrine Falcon' on the BirdsCaribbean website.

But we also encourage you to look at videos about the Peregrine Falcon on YouTube and to search other websites for information for example:

- www.allaboutbirds.org
- www.audubon.org
