However, if both parties agree that meaningful progress towards resolution is being made, the matter may be retained at this level for a maximum of 60 working days.

### **Addressing Gender Based Violence**

The specific nature of sexual exploitation and abuse and of sexual harassment (SEA/SH) requires tailored measures for the reporting, and safe and ethical handling of such allegations. A survivor-centered approach aims to ensure that anyone who has been the target of SEA/SH is treated with dignity, and that the person's rights, privacy, needs and wishes are respected and prioritized in any and all interactions.

The Grantee will specify an individual who will be responsible for dealing with any SEA/SH issues, should they arise. A list of SEA/SH service providers will be kept available by the project. The Grantee should assist SEA/SH survivors by referring them to Services Provider(s) for support immediately after receiving a complaint directly from a survivor.

To address SEA/SH, the project will follow the guidance provided on the World Bank Technical Note "Addressing Sexual Exploitation and Abuse and Sexual Harassment (SEA/SH) in Investment Project Financing Involving Civil Works". This Grantee will follow the official WB definitions described on the Technical Note as shown below:

Sexual Abuse (SEA) is an actual or threatened physical intrusion of a sexual nature, whether by force or under unequal or coercive conditions

Sexual Exploitation (SE) refers to any actual or attempted abuse of a position of vulnerability, differential power, or trust, for sexual purposes, including, but not limited to, profiting monetarily, socially or politically from the sexual exploitation of another.

Sexual harassment (SH) is any unwelcome sexual advance, request for sexual favour, verbal or physical conduct or gesture of a sexual nature, or any other behaviour of a sexual nature that

might reasonably be expected or be perceived to cause offense or humiliation to another, when such conduct interferes with work, is made a condition of employment or creates an intimidating, hostile or offensive work environment.

Sexual Exploitation and Abuse and Sexual Harassment (SEA/SH) service provider is an organization offering specific services for SEA/SH survivors, such as health services, psychosocial support, shelter, legal aid, safety/security services, etc.

The survivor-centered approach is based on a set of principles and skills designed to guide professionals—regardless of their role—in their engagement with survivors (predominantly women and girls but also men and boys) who have experienced sexual or other forms of violence. The survivor-centered approach aims to create a supportive environment in which the survivor's interests are respected and prioritized, and in which the survivor is treated with dignity and respect. The approach helps to promote the survivor's recovery and ability to identify and express needs and wishes, as well as to reinforce the survivor's capacity to make decisions about possible interventions.

SEA/SH grievances can be received through any of the available channels and will be considered as "High-profile grievances - that if not resolved promptly may represent significant risks to the environment or community". A list of GBV service providers for the St. Vincent and the Grenadines can be accessed through the Regional Implementation Team's (RIT's) project page at this link <<https://canari.org/wp-content/uploads/2021/11/CEPF-II-GBV-Service-Providers-St-Vincent-the-Grenadines.pdf>> and will be defined prior to the contracting of workers, will be kept available by the GBV trained individual, the Project Managers, Project Coordinators, and Social Specialists.

Additionally, if an incident occurs, it will be reported as appropriate, keeping the anonymity and confidentiality of the complainant and applying the survivor-centered approach.<sup>1</sup> Any cases of SEA/SH brought through the Grantee will be documented but remain closed/sealed to maintain the confidentiality of the survivor. The CEPF will be notified as soon as the designated persons from the Grantee organization learn about the complaint.

If a SEA/SH related incident occurs, it will be reported through the Grantee, as appropriate and keeping the survivor information confidential. Specifically, following steps will be taken once an incident occurs:

#### ACTION 1: COMPLAINT INTAKE AND REFERRAL

If the survivor gives consent, the designated person responsible from the Grantee fills in a complaints form, excluding any information that can identify the survivor:

- The nature of the allegation (what the complainant says in her/his own words without direct questioning)
- If the alleged perpetrator was/is, to the survivor's best knowledge, associated with the project (yes/no)
- The survivor's age and/or sex (if disclosed); and,
- If the survivor was referred to services

---

<sup>1</sup> The survivor-centered approach is based on a set of principles and skills designed to guide professionals—regardless of their role—in their engagement with survivors (predominantly women and girls but also men and boys) who have experienced sexual or other forms of violence. The survivor centered approach aims to create a supportive environment in which the survivor's interests are respected and prioritized, and in which the survivor is treated with dignity and respect. The approach helps to promote the survivor's recovery and ability to identify and express needs and wishes, as well as to reinforce the survivor's capacity to make decisions about possible interventions.

If the survivor does not want to provide written consent, her/his consent can be verbally received. If needed or desired by the survivor, the designated person responsible for the Grantee refers her/him to relevant SEA/SH service providers, identified in the mapping of SEA/SH service providers and according to preestablished and confidential referral procedures. The survivor's consent must be documented even if it is received verbally. The service providers will be able to direct survivors to other service providers in case the survivor wishes to access other services. The designated person responsible for the Grantee will keep the survivor informed about any actions taken by the perpetrator's employer. If the survivor has been referred to the relevant SEA/SH service providers, received adequate assistance, and no longer requires support; and if appropriate actions have been taken against the perpetrator or if the survivor does not wish to submit an official grievance with the employer, the designated person responsible from the Grantee can close the case.

### ACTION 2: INCIDENT REPORTING

The designated person responsible for the Grantee needs to report the anonymized SEA/SH incident as soon as it becomes known, to the Executive Director who will in turn inform the CEPF.

Complaint Forms and other detailed information should be filed in a safe location by the designated person responsible for the Grantee. Neither the designated person responsible for the Grantee nor the Executive Director should seek additional information from the survivor.

SEA/SH incident reporting is not subject to survivors' consent but the designated person responsible from the Grantee needs to provide ongoing feedback to the survivor at several points in time: (1) when the grievance is received; (2) when the case is reported to designated person responsible from the Grantee and CEPF; (3) when the verification commences or when a determination is made that there is an insufficient basis to proceed; and (4) when the verification concludes or when any outcomes are achieved or disciplinary action is taken.

As long as the SEA/SH remains open the designated person responsible from the Grantee and/or Executive Director should update the CEPF on the measures taken to close the incident.

### ACTION 3: GRIEVANCE VERIFICATION AND INVESTIGATION

Each SEA/SH incident should be verified to determine if it was related to the CEPF-funded project. The designated person responsible for the Grantee should form a SEA/SH verification committee comprised by her/him, one member of the Grantee organization, one member of a local service provider and a representative of the contractor (if relevant). The designated person responsible from the Grantee should notify the SEA/SH Committee of the incident within 24 hours of its creation. The SEA/SH verification committee will consider the SEA/SH allegation to determine the likelihood that the grievance is related to the project.

If after the committee review, SEA/SH allegation is confirmed and it is determined that it is linked to a project<sup>2</sup>, the verification committee discusses appropriate actions to be recommended to the appropriate party—i.e., the employer of the perpetrator, which could be the designated person responsible from the Grantee or a contractor. The designated person responsible from the Grantee

---

<sup>2</sup> Project actors are: (a) people employed or engaged directly by the Grantee to work specifically in relation to the project (direct workers); (b) people employed or engaged through third parties (Project staff, subcontractors, brokers, agents or intermediaries) to perform work related to core functions of the project, regardless of location (contracted workers); (c) people employed or engaged by the Grantee's primary suppliers (primary supply workers); and (d) people employed or engaged in providing community labor such as voluntary services or participation in project activities and processes (community workers).

will ask contractors to take appropriate action. The committee reports the incident to the perpetrator's employers to implement the remedy/disciplinary action in accordance with local labor legislation, the employment contract of the perpetrator, and their codes of conduct as per the standard procurement documents.

For SEA/SH incidents where the survivor did not consent to an investigation, the appropriate steps should be taken to ensure the survivor is referred to/made aware of available services and that the project mitigation measures are reviewed to determine if they remain adequate and appropriate or if they require strengthening.

If the survivor is interested in seeking redress and wishes to submit an official complaint with the employer, or with entities in SVG legal system, the designated person responsible from the Grantee should provide linkages to the relevant institutions. Ensuring due legal process is up to the police and the courts, not the SEA/SH verification committee. Unlike other types of issues, the designated person responsible from the Grantee does not conduct investigations, make any announcements, or judge the veracity of an allegation.

Any cases of SEA/SH brought through the Grantee will be documented but remain closed/sealed to maintain the confidentiality of the survivor. Here, the GM will primarily serve to:

- Refer complainants to the SEA/SH Services Provider; and
- Record the resolution of the complaint

The Grantee will also immediately notify both the CEPF and the World Bank of any SEA/SH complaints **WITH THE CONSENT OF THE SURVIVOR.**
